

Im All Alone Dancing

Looking closely in my eyes – hold me forever
Side by side we stand, so in love
With that look, you and I could be
Heaven's own from heaven above
I'm all alone with you, dancing on air
Seems lonely in your arms, I'm gently beside you
All the love I'm feeling is true
And through the changes of the years – you know I'll be there
I'm all alone with you, dancing on air
You're sending me round and round, and taking good care
I'm all alone with you, dancing on air
There are people dancing by you – reach out to kiss me
Your love, I know, is sincere
When I turn to look around, you'll be the only one there
I'm all alone with you, dancing on air
You're sending me round and round, and taking good care
I'm all alone with you, dancing on air
Round and round, through time we'll share
Hearts entwined, beyond compare
I'm all alone with you – dancing on air
Dancing on air...
