

In Love Forever

If Love could be the way to go
From rags to riches, I'd be a millionaire
I wouldn't have a thing since I found you
If happiness lives in the heart of the one who loves you
Hold on and don't let go
Together you will grow in love forever
But if every time gets hard to understand
Don't worry – just rely on one another
Hand in hand we'll make it through somehow, someway
Weathering the storm together

You and I can look upon the past
And share a world of memories
The presence here to show
Love's worth its weight in gold
And on the story goes
But if ever times gets hard to understand
Don't worry – just rely on one another
Hand in hand, we'll make it through somehow, someway
Weathering the storm together
You and I can look upon the past
And share a world of memories
The presence here to show
Love's worth its weight in gold
Hand in hand, we'll make it through somehow, someway
Weathering the storm together
