

Love Never Fails

Love never fails
Love is never wrong
Even the weakest of hearts can be strong
With love by your side
There's nothing to fear
Love can work miracles even through tears
Press on and find the kindness inside
Show all the world there's nothing to hide
When true love is found
It's never far
Just take a chance
Be who you are
Do, do, do, do
Do, do, do, do, do, do
Good thing to do
So don't lose your faith
It's all around
Open your heart — love will be found
(Modulate to higher key)
Love never fails
Love's never wrong
Even the weakest of hearts can be strong
With love by your side
There's nothing to fear
Love can work miracles even through tears
