

Love Them All

I'm all torn up about it
I can't put it in the past
All my friends won't let me live it down
Well, this time I'm the bad guy
They say I've done wrong
They keep on pushing me around
And I love them all
They don't know what went down
Yeah, love 'em all
They don't know anything anyhow
Cause when you're down, you need a friend
And when you're lost, sometimes there's no end
When you're down, you can't see
Coming back again
And if they'd leave me alone
I'll be okay
I never needed anything from them anyway
Love 'em all
They don't know what went down
Love 'em all
They don't know anything anyway
Love 'em all
They don't know what went wrong
Love 'em all
They don't know anything anywhere
Yeah, love 'em all
They don't know what we're doing
Love 'em all
They don't know anything anyhow
Love them all
They don't know what we're doing
Love 'em all
They don't know anything anyhow
