

Part of You

**I'm close to loving you
Being here feels so true
When you're here by my side
It all just feels so right
I lose a part of me
Becoming part of you
Now only time will know
What road we'll take and where we'll go
As seasons pass us by
We both may, maybe a light
Will try until we die
To keep our love alive
Can we cry? Can we smile?
Can be hurt for just a while
Can this world be so small
Just to know we found it all
I lost a part of me
Becoming part of you
Can we laugh through the pain
Into the heat of burning flames
Slow the world to a crawl
Take the time to feel it all
I lost a part of me
Becoming part of you
I lost a part of me
Becoming part of you**
