

# Together You and Me

I hope you find what you're looking for  
Wherever you may go  
I hope you get everything you want  
Hope life brings to you so much more

I'll fly you to the moon  
We'll dance upon the stars  
Light upon the Milky Way  
There's nowhere that could be too far

Here in the silence of my room  
We'll make our destiny  
I'll take you anywhere, anytime  
Anywhere you want to be  
Even if it takes forever  
So long as we're together  
Together, you and me

I'll fly you to the moon  
We'll dance upon the stars  
Lie upon the Milky Way  
There's nowhere that could be too far

Here inside of my room  
We'll make our destiny  
I'll take you anywhere, anytime  
Anywhere you want to be  
Even if it takes forever  
So long as we're together  
Together, you and me
