

Untill Forever

Untill Forever

From the start, to this very day
I search myself to figure it out
I never knew my life could change
You came along and left me no doubt

Knowing your heart is here, close to me
I'll never give up loving you – that's how it will be

Until the seas run dry
Until the stars refuse to shine
That's how I love you
Until forever you'll be mine

Now and again, I'm lost in this passion
Locked in my soul, it's all in this dance
If we had nothing else in life as we know it
I know that with you I was given a chance

Knowing your heart is here, close to me
I'll never give up loving you – that's how it will be

Until the seas run dry
Until the stars refuse to shine
That's how I love you
Until forever you'll be mine

Knowing your heart is here, close to me
I'll never give up loving you – that's how it will be
