

Heart Over Matter

I've lost my head
Every time I'm close to you
It's like I'm supposed to
When you're not around
Just take me out, just push me down
Just in your way, and we'll always be
Heart over matter, love over time
My soul has a reason to love you for all time
Why should a passion is a fool
Always living life is easy
To love you like I do – whoa, oh whoa
I've lost my head
Every time I'm close to you
Is it like I'm supposed to
When you're not around
Just take me up, just push me down
Just in your way, and we'll always be
Heart over matter, love over time
My soul has a reason to love you all the time
Passion of passion is a fool all the way
Living like it's easy to love you like I do
Heart over matter, love over time
My soul has a reason to love you
All the time has shown a passion is a fool's only way
Living like it's easy to love you like I do, like I do
Passion or passion when it fades
Sees it, love you like I do
Oh – oh oh
Oh oh yeah yeah yeah
To love you like I do – oh
